Progress on the allotment

We have been carrying out research regarding the allotment, finding ideas, on what we could grow as well as who would maintain the allotment and what we will do with the produce made.

Watch out for

Coming soon you will be able to see our clients summer holiday trips out with their Support Worker.

July Newsletter

Exiting news from Butterflies

Well done to the ladies at Butterflies, which is a Support for living house, they have recently decided they wanted to make improvements in their garden.

The ladies have been planting a variety of flowers, along with creating a mini allotment in their garden where they are now growing fruit & vegetables like; courgettes, green beans, potato's, lettuce, strawberries and tomatoes. They have also taken full responsibility of the garden by making sure that they water it every night, along with keeping up with general garden maintenance.

Great news for Ross

We are pleased to say a huge well done to Ross, who has worked with one of our job coaches since May 2021 and has recently been offered a contract for part time employment at Replif. Ross starts this on the 19th July 2021. Ross has also begun travel training to further his independence. What a great achievement!

One of our Job Coaches who has complete an Intern Program with a client which resulted in employment has received some great feedback himself. Here it is "Thank you for your continued, professional support of and me, it's been a pleasure working with you and hopefully we will still work with each other next year."
